

Please do not expand th LPFM to interfere with K-LOVE which I hear on 91.1. It is a very inspirational station with uplifting and encouraging music and messages. It is family friendly which can not be said of many radio stations. This the only Christian stations which can be received in my area. We use it to reach out to local youth in our after school program at our church. Please do not change the LPFM and hurt our station. Thank you.
